

PY-02

Quality Policy Statement

It is the policy of Amber Scaffolding Limited to supply products and services of consistent high quality to its clients and to ensure compliance with the applicable codes, standards and regulatory requirements.

In order to achieve this objective, it is the policy of Amber to maintain and establish an effective system to ensure the maintenance of quality within the business in conjunction with other management functions.

The Quality Assurance Programme of Amber is based on the requirements of BS EN ISO 9001:2015 with a focus on

- Customer satisfaction
- Attention to detail
- Quality and Safety Service delivery

The Health and Safety manager is responsible for ensuring the implementation of this manual and has the authority and organisational freedom to identify quality assurance problems and to initiate, recommend and provide solutions.

Company personnel shall at all times fulfil Amber's quality requirements and those that relate to the requirements of our customer. Unresolved differences of opinion relating to quality shall be referred to the Chairman for resolution.

To this end it is developed a QSHE Management System based upon continuous improvement. The company's QSHE Management System and Rail Management Systems describe how of Amber will to ensure that all requirements for quality are recognised and that consistent and uniform control of these requirements is adequately maintained including working on Network Rail's Controlled Infrastructure. The system also defines how effective control is established.
